	<b>Leading researcher</b>	<b>Each participant separately</b>	<b>Other, please fill the box below</b>

COMMENT BOX: Please enter below any other comment you would like us to know

Leading Researcher   
 (please print your name in the box above, this is treated as your signature)

- 1) This form is to be filled by the leading researcher of the group (who would normally be expected to make the payment).
- 2) The form should be sent to [secretariat@mesc-its.org](mailto:secretariat@mesc-its.org). We will return to the leading researcher with information regarding the payment.
- 3) The payment should be made either in **Euro or Turkish Liras**. Since Euro to Turkish Lira (TL) exchange rate fluctuates unpredictably, those who are making paying in TL are asked to use the exchange rate on April 15th 2018 (i.e. **1€=5.071TL**). This rate will be applicable for early registration up to June 15th 2019. Then on, the applicable rate will be that of April 15th 2019 as will be announced by Turkish Central Bank and will remain fixed until the end of symposium.
- 4) Since we encourage and promote group participation in mESC-IS2019, 30 % of the registration fee of the group as a whole will be covered by income procured from other sources, i.e. **the group will pay 70% of the total registration fee**. To qualify for this reduced registration fee, each participant in the group is expected to have an accepted paper (oral or poster) in mESC-IS 2019.
- 5) Group registration is possible until **June 1st** and the **payment should be made not later than June 15th**.
- 6) After June 15th registration is possible but only on individual basis.
